# NORTHSTAR SAUNA

Reimagined for today. Based on our Classic Sisu Series and our Euro Sauna Series, the NorthStar Sauna is designed in the Nordic Tradition with Nordic White Spruce interior and exterior, with benches and backrests of clear Aspen or Abachi.

NorthStar saunas are modular/free-standing, making them easy to incorporate into an in-home fitness area or anywhere there is as little as 16 sq. ft. of floor space.

For healthy backyard living, the NorthStar Outdoor Saunas are ideal for backyard patios, pool-side or adjacent to a backyard cold plunge or hot tub.

- Four interior sauna room sizes: 4'x4', 4'x6', 5'x6' and 5'x7'
- Three outdoor sauna rooms: 4'x6', 5'x6' and 5'x7'

**HEALTHY DAILY LIVING IS MORE ACHIEVABLE THAN EVER WITH A FINNLEO NORTHSTAR SAUNA.**

**NorthStar Indoor Saunas include the following:**

- Nordic White Spruce (NWS) interior and exterior
- Benches, backrests, and all surfaces that touch the bather: Clear Aspen or Abachi
- Integral Backrest LED lighting (with RGBW color light therapy)
- All-glass door, bronze tinted glass
- All sizes except for 4'x4', have sidelite window, bronze tinted, insulated glass
- Heater and control:
  - 4'x4' is Junior heater with SL2: 1.7 kW/120V or 2.2 kW/120V
  - 4'x6': 4.5kW Viki heater with SL2
  - 5'x6' and 5'x7': 6.0 kW Viki heater with SL2
- All NorthStar Series saunas include SL2 control with worldwide functionality mobile app
- Rento Pisara Bucket and Ladle

**Optional on NorthStar Indoor Saunas:**

- Sound Bar System
- Integral floor with waterproof surface
  - Floor is standard on NSI-44

**NORTHSTAR INDOOR SAUNA NSI-44**

With the NSI-44, a true Finnish sauna experience is possible in only 16 sq. ft. of floor space. The NSI-44 comes equipped with the same features as other NorthStar saunas, but with the 120-volt stainless steel “Junior” heater (1.7 kW or 2.2 kW/120V/with cord/plug) instead of a 240-volt heater. Simply assemble, plug it into the closest dedicated outlet and you’re ready—no finishing work, no plumbing and no electrical. As with all NorthStar saunas, the NSI-44 includes a SaunaLogic2 control with worldwide mobile app.

## NORTHSTAR INDOOR SAUNA NSI-46

This 4'x6' sauna is ideal for two or three people, including a top bench long enough to comfortably lie down.

The NSI-46 includes a Viki 4.5 kW stainless steel heater and SaunaLogic2 control.

## NORTHSTAR INDOOR SAUNA NSI-56

The NSI-56, only 30 sq. ft. in size, feels surprisingly roomy. With an O.D. of 5'x6', sauna bathers can comfortably lie down on the top bench or comfortably seat three, with room to sit on the lower bench for those wanting to sit in a lower-heat zone. The sauna includes a Viki 6.0 kW stainless steel heater with SaunaLogic2 control and mobile app.

## NORTHSTAR INDOOR SAUNA NSI-57

The NSI-57, one of our most popular models, is amazingly roomy, yet only takes up 35 sq. ft. of floor space. With an L-shaped top bench, it comfortably seats four or five people and plenty of room for two to lie down.

The NSI-57 includes a Viki 6.0 kW stainless steel heater with SaunaLogic2 control and mobile app.

## COLOR THERAPY

### Psychological and Therapeutic Effects of Color

All NorthStar Series Saunas include color therapy lighting systems—discreetly integrated into the backrests. In addition to white light, the LED lighting system can create six different colors (Red, Green, Blue, Yellow, Turquoise and Violet); choose the color according to the mood desired.

# NORTHSTAR OUTDOOR SERIES SAUNA ROOMS

The Finnleo NorthStar Outdoor Sauna's simple panel construction makes it easy to assemble in a few hours anywhere you have space—on a backyard patio, poolside, or even under a deck.

The perfect complement to backyard living, the NorthStar Outdoor Sauna is easier than ever to use with your smart-phone as a second control. No need to go outside to turn the heater on.

## NorthStar Outdoor Saunas Include:

- Nordic White Spruce (NWS) interior and exterior
- Exterior surface must be painted or stained
- Benches, backrests, and all surfaces that touch the bather: Clear Aspen or Abachi
- Integral Backrest LED lighting (with RGBW color light therapy)
- Heater and control:
  - 4'x6': 4.5 kW Viki heater with SL2
  - 5'x6' and 5'x7': 6.0 kW Viki heater with SL2
  - All NorthStar Series includes the SL2 control and mobile app with worldwide functionality
- Integral floor with waterproof vinyl surface
- Metal roofing standard
- All-glass door, bronze tinted glass
- Sidelite window, bronze tinted, insulated glass

## Optional on NorthStar Outdoor Saunas:

- Soundbar Sound System

## NORTHSTAR OUTDOOR SAUNA NSO-46

The NSO-46 is a compact 4'x6' with only 24 sq. ft. of surface area needed. The sauna includes a Viki 4.5 kW stainless steel heater with SL2 control.

## NORTHSTAR OUTDOOR SAUNA NSO-56

Similar to the NSO-46 but with one foot of extra depth and a 6 kW Viki heater. It, of course, includes the popular SL2 control with mobile app.

All NorthStar Outdoor Saunas must be painted or stained immediately after installation (see additional paint information in the NorthStar Outdoor Sauna Installation Manual). Choose a color to match the house, or go with a classic Nordic look and paint it black as shown below.

All NSO Height = 89 7/8"

# NORTHSTAR OUTDOOR SAUNA NSO-57

Our roomiest NorthStar Outdoor Sauna, the 5'x7' sauna includes an L-shaped top bench, with seating for five or two people lying down. The NSO-57 includes a Viki 6 kW stainless steel heater with SaunaLogic2 control and mobile app.

## WHY NORDIC WHITE SPRUCE?

Traditionally, saunas are built of Scandinavian, or Nordic whitewoods. Worldwide, 90% of all saunas are constructed of this wood type. All Finnleo NorthStar saunas have tongue and groove Nordic White Spruce (NWS) on the walls and ceiling. Finnleo NWS is always European Grade A, harvested from the tops of trees more than 70 years old, with tight living knots. All portions of the sauna which the skin touches (benches, backrests, headrests, heater guard, and door handles) are made of Clear Aspen or Abachi.

Because our Nordic White Spruce is grown in Finland, north of 60° (near the Arctic Circle) it's an unusual softwood without the usual porous characteristics. The light-colored wood, with its natural stain resistance, gives it a more spacious feel with a modern Nordic look.

The Nordic Spruce/Aspen-Abachi combination used in Finnleo Saunas insures the saunas will smell fresher - as sweat doesn't impregnate the wood as it can with other woods. The sauna emits a subtle forest scent as it's heated.
